## ABOUT ME

---

A bachelor graduate from Bandung Institute of Technology, who has a passion for full-stack web development. Experienced in Javascript, especially NodeJS and ReactJS; databases (SQL and NoSQL); and basic web security. Enjoy collaborating with teams to create dynamic and interactive web applications. Always eager to learn new technologies and contribute to innovative projects in the industry.

## PROJECTS

---

**Portfolio Project** (May 2023 - June 2023)

<https://agungardneham.github.io/portfolio/>

A website to list all of my finished projects, show my detailed biodata and show my experience.

**Metalfest ITB 2022 Website** (July 2021 - February 2022)

<http://metalfestitb.com/>

This is a website project for Metalfest ITB 2022 event (event register and information provider). I am responsible for managing the front-end team and the back-end is handled by a third party.

**RevoU Software Engineering Mini Course Final Project** (March 2023)

<https://agungardneham.github.io/portfolio/revou.html>

This is an introduction course to web development. In this final project, I must only use vanilla HTML, CSS, and JavaScript.

## EDUCATION

---

**Bandung Institute of Technology** Bandung, West Java  
**Bachelor of Metallurgical Engineering** 2018-2022

- GPA 3.49
- Head of IT Department at Metalfest ITB 2022 (national metallurgy student competition by Association of Metallurgical Engineering Student ITB).
  - Lead a website project for registering and providing information about the competition (metalfestitb.com).
  - Did the front-end development for that website.

## COURSES, TRAINING, AND CERTIFICATIONS

---

- **Harisenin Full Stack Developer Bootcamp - Batch 8** (July 2023 - December 2023)  
Harisenin
